Stats for Completed Hikes:

Total Distance Hiked: 64.8 mi

Total Elevation Gained: 12,500 ft

Shows stats for completed hikes.

Advanced Ideas:

+ Compare percentage of # of hikes completed vs # of hikes incomplete (that have been added to list)

+ Plot Vertical Gain (ft) vs Distance (mi) for each hike

First check on box triggers pre-trip (if not completed), checking the box again triggers post-trip and completes the hike (makes it checked and inactive)

Dashboard Page returns Home / Logout logs user out.

Hiking Dashboard

http://localhost:8000/#!/hikes/new-gear-list

Add New Gear List

[Dashboard](#) | [Logout](#)

Dashboard Page returns Home / Logout logs user out.

Build Gear List:

List Name:
ie, Day Hiking List

Items (enter one item per line, no punctuation after):

warm hat
gloves
extra pair socks
sunglasses
rain jacket
rain pants
mid layer
base layer

Validate form in event user enters punctuation after each line, like a comma or semicolon

Have tool-tip give extra information (mobile friendly), or add extra instructions to page.

Please be sure each item is entered on its own line, without any commas, semi-colons or periods afterwards. Each line item will be converted into a list item.

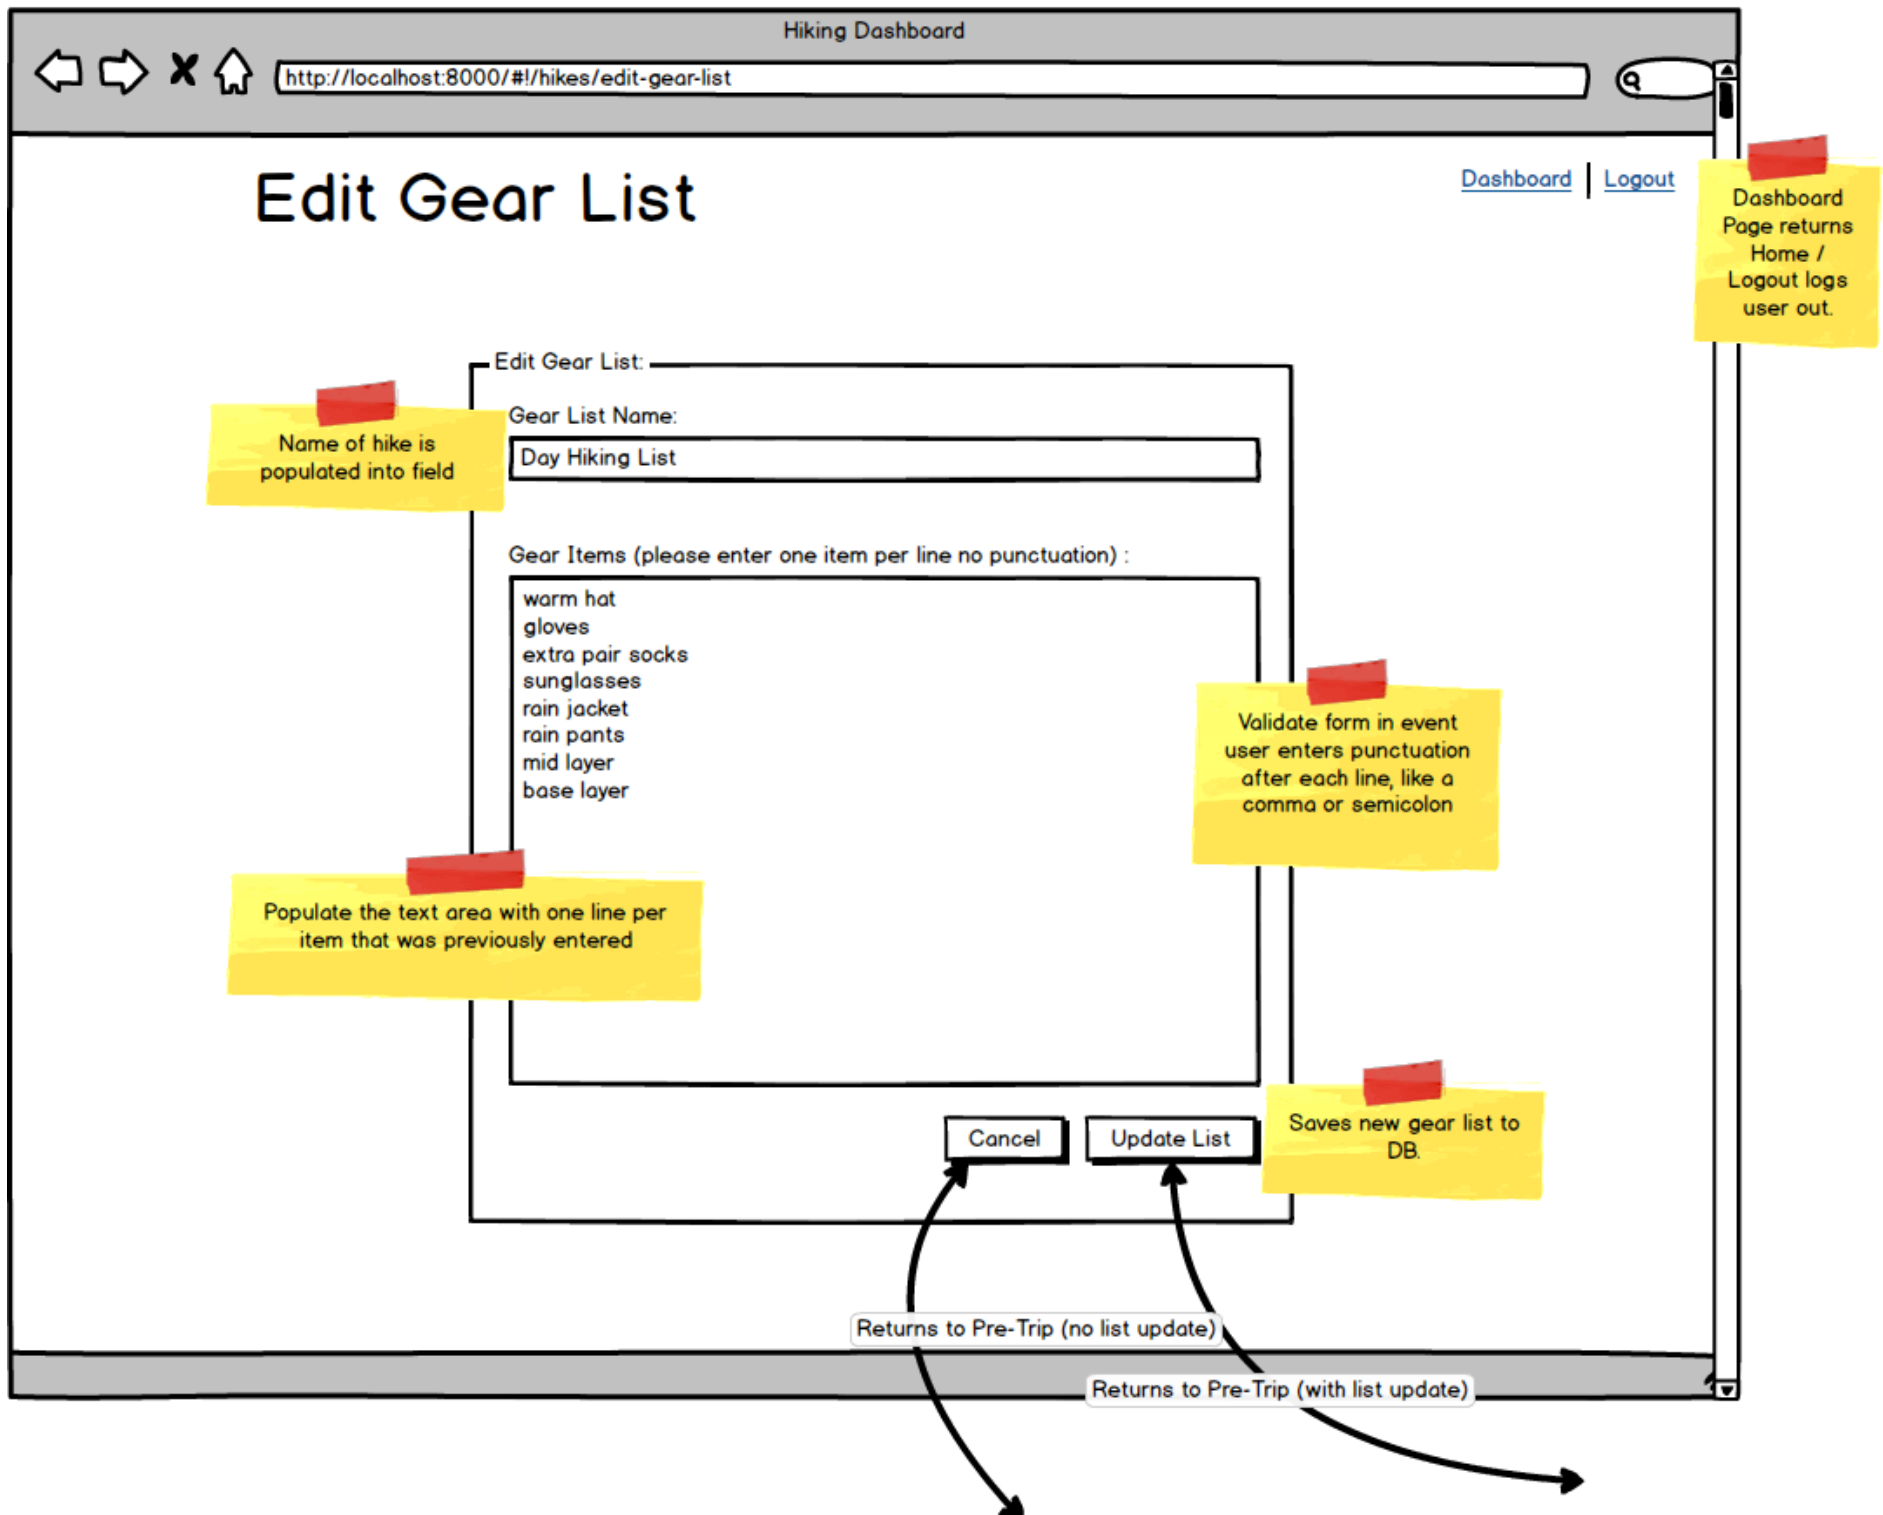

Cancel Add New List

Saves new gear list to DB.

Returns to Pre-Trip (no list creation)

Returns to Pre-Trip (with new list created)

Advanced Feature Addition:
Add in something where # could create a sub-heading so that gear lists could be organized into sections like #clothing or #cookware

Edit

Loads Edit Hike Page (if pre & post not started)

Only Allowed if Pre/Post not filled out

Deletes Hike (only if pre & post not started)

Have date recorded when pre-trip and post-trip was filled out.

Itinerary:
Hike to end of trail and back. Start @1PM from trailhead, return 6PM, home by 7PM/8PM.

Potential Hazards:
Fallen tree at first 1/2 mi.

■ Gear Carried: Day Hike List

- Date:
03/22/17

Actual Hiking Time:
5.5 hours -- stopped for more breaks.

Actual Weather:
Light clouds, mostly clear, mid 50's.

Experienced Hazards:
Steep slopes at trail edge, hug inside of trail to avoid exposure.

Flora and Fauna Sightings:
Numerous western red cedar at trail entrance, stand of douglas fir mid way - second growth - lots of salmon berry, salaal and devil's club. Gray Jays, Crows.

Additional Notes:
Nice hike. Not very steep grade, but in retrospect needed one additional layer for this time of year.
